www.soinc.org

# BE! A COACH

# **MOTIVATIONAL**

# When you coach a Science Olympiad team,

your love of learning and excitement for science gets reflected back every day, at every practice and every competition. Science Olympiad lets students flex independent learning skills as they build devices and study for events; your job is part talent scout, part cheerleader and part drill instructor. As the season progresses, you'll rediscover the reason you became a teacher.

Science Olympiad events align with Next Generation Science Standards, allowing you to extend your school's science curriculum with engaged learners in an after-school setting. Check out the list of events we've got lined up for the 2024 season; there's something for everyone!

# **2024 EVENTS BY DIVISION**

## **DIVISION B**

**GRADES 6-9** 

#### Life, Personal & Social Science

Anatomy and Physiology (Cardiovascular, Lymphatic, Excretory) Disease Detectives Ecology (Tundra, Taiga and Deciduous Forests) Forestry Microbe Mission

#### Earth & Space Science

Dynamic Planet (Earthquakes/Volcanoes/Plate Tectonics) Fossils Meteorology (Severe Storms) Road Scholar Reach for the Stars

#### **Physical Science & Chemistry**

**Physics** Air Trajectory Optics Wind Power Chemistry Can't Judge a Powder Crime Busters

#### **Technology & Engineering**

Flight Roller Coaster Tower Wheeled Vehicle

#### Inquiry & Nature of Science

Codebusters Experimental Design Fast Facts Write It, Do It

#### TRIAL EVENTS

Aerial Scramble, Agricultural Science, Botany, Digital Structures, **Engineering CAD** Home Horticulture, Mission Possible, Solar Power

#### **DIVISION C**

GRADES 9-12

#### Life, Personal & Social Science

Anatomy and Physiology (Cardiovascular, Lymphatic, Excretory) Disease Detectives Ecology (Tundra, Taiga and Deciduous Forests) Forestry Microbe Mission

#### Earth & Space Science

Astronomy Dynamic Planet (Earthquakes/Volcanoes/Plate Tectonics) Fossils Geologic Mapping

# **Physical Science & Chemistry**

**Physics** Air Trajectory Objects Wind Power Chemistry Chem Lab **Detector Building Forensics** 

#### **Technology & Engineering**

Fliaht **Robot Tour** Scrambler Tower

#### Inquiry & Nature of Science

Codebusters Experimental Design Fermi Questions Write It, Do It

#### **TRIAL EVENTS**

Aerial Scramble, Agricultural Science, Botany, Cybersecurity, Digital Structures, **Engineering CAD** Home Horticulture, Mission Possible, Solar Power

**Science Olympiad**: The Basics

**DIVISION B** (Grades 6-9)

**DIVISION C** (Grades 9-12)

Invitational, Regional, State and National Tournaments

Events in **Each Division** 

I've never been so excited and felt more fulfilled in my career than when I'm coaching Science Olympiad. I've even begun incorporating some events into my STEM fundamentals class to inspire interest in my younger students.

# BE: A SCIENTIST

# THE FUTURE

# That one thing.

That's what all the guidance counselors and thing. A place where you feel like you can be yourself, exercise your unique talents, and find friends who excel in science. That's

**Science** Olympiad.

If you want to be an engineer, a chemist, a biology teacher, an astronaut, an astrophysicist, a math professor, or hey, how about all of the above, Science Olympiad lets you try it on for size. We've got 23 events touching every letter in STEM to allow you to explore any pathway. Science Olympiad helps you find your what, your how, and maybe most importantly, your why.

# **WANT TO BE PART OF IT?**

Do you have what it takes to get a \$10,000 Science Olympiad Founders' Scholarship? Scan the QR code to find out about past and upcoming scholarship opportunities!

# **TOURNAMENTS**

Science Olympiad tournaments are a blast, usually held on a college or community college campus, comprised of a full day of teams hustling from home base to labs, gyms and classrooms in pairs and threes to compete in events that test learning, lab and building skills on the spot. Picture a track meet, but for science. The payoff? An awards ceremony in a huge auditorium or stadium, with crowds cheering while you're showered with medals, trophies, scholarships and accolades for your brilliance. Not bad for the college app either.

# **GIVING BACK**

Science Olympiad participants also give back by starting mentoring programs for younger kids, raising funds for food pantries and 3D printing PPE during the pandemic. Science Olympiad isn't just a club, it's a community.

It's Smart to be Good! Each year, Science Olympiad encourages its community to raise funds for a nonprofit in conjunction with the National Tournament. In 2022, we raised more than \$47,000 for STEAM: CODERS in Los Angeles.

I aspire to continue to work for every student, regardless of their background, to find their love for science just as I had. In college, I promise to continue bridging the inequality gap in STEM.

#### **NOSAKHARE IYOHA**

\$10,000 Science Olympiad Founders' Scholarship Winner SPRING EARLY COLLEGE ACADEMY SPRING, TEXAS

After STEM funding was cut during the pandemic, Nosakhare secured new resources for K-12 Science Olympiad programs in his district.

Science Olympiad Headquarters Two Trans Am Plaza Dr., Suite 310 Oakbrook Terrace, IL 60181

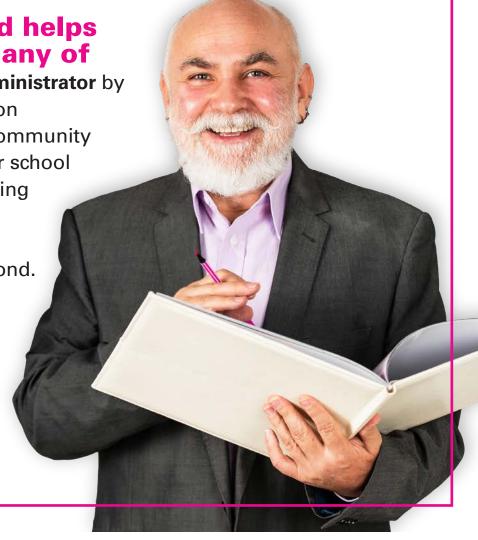

# BE: A CHAMPION

# **PROUD**

**Science Olympiad helps** you to achieve many of your goals as an administrator by enhancing STEM education programming, building community buy-in and recognition for school achievements, and engaging students with hands-on experiences that prepare them for college and beyond. Students specialize in subjects of their choice, from bio to chem to tech and engineering, while teachers get to work with kids who've raised their hand and said YES to science.

Each fall, Science Olympiad releases new rules for 23 STEM-related competitive events. Students pair up and tackle the building devices for on-site testing, studying for core knowledge challenges, and preparing for rigorous hands-on lab experiments. School teams register annually through their state Science Olympiad chapter, for a great value compared to other top STEM programs.

# **WANT TO BE PART OF IT?**

At Science Olympiad, students get a taste of what it's like to BE part of the future STEM workforce. Check out this amazing STEM Expo from Wisconsin Science Olympiad!

Science Olympiad catalyzes parental and community involvement, unifying everyone to create not only senses of belonging and pride, but a sense of family. Students bridge the gap between the school and community through fundraising, social media promotion, and science competitions, and these events afford students both national and global opportunities for individual, team, and school recognition.

# **SCIENCE OLYMPIAD: The Value**

Science Olympiad Registration

\$100-\$350

Cost of a typical Science Olympiad team registration, entire year all the way to nationals

**Other STEM Competition Fees** 

Cost of a Regeneron Science and Engineering Fair Entry for 1-3 entries

\$6,000

Cost of FIRST Robotics Team Fee and Mandatory Kit for 10 students at 1 regional

Science Olympiad Headquarters Two Trans Am Plaza Dr., Suite 310 Oakbrook Terrace, IL 60181

# BE: A HOST.

# **INVESTED**

If you're searching for effective ways to fill the STEM talent pipeline, look no further than Science Olympiad. Our program allows students to try on a variety of sciences for size and develop soft skills like teamwork, collaboration and problem solving. Hosting a Science Olympiad tournament brings hundreds of students to campus, where they interact with faculty, experience your facilities and consider a future STEM pathway with your logo on their t-shirt! Students regularly say that the experience of visiting a campus for a Science Olympiad tournament was the deciding event in choosing a 2- or 4-year college.

# **WANT TO BE PART OF IT?**

Campuses know that recruiting the best STEM students is vital to the STEM workforce. Watch how Science Olympiad brings a curated group to Colorado State University in Pueblo!

# SCIENCE OLYMPIAD ALUMNI NETWORK

Science Olympiad doesn't stop in senior year of high school. There are now 51 Science Olympiad College Alumni Chapters on top campuses across the US, like Caltech, Stanford, Cornell, Michigan, Texas A&M, University of Chicago, Harvard, Princeton and Yale. Undergrads and graduate students founded these clubs to host tournaments, perform community service and provide opportunities to showcase each campus'

faculty and facilities.

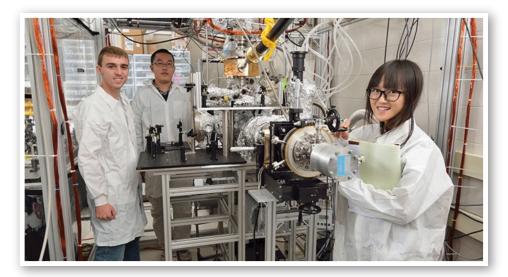

Participating in Science Olympiad gave me the opportunity to visit many universities during competitions. I learned more about what each university had to offer and got to experience what going there might be like. This helped me a lot in deciding where I wanted to apply and ultimately choosing where I wanted to go.

# **2024 SCIENCE OLYMPIAD** NATIONAL TOURNAMENT HOST, MICHIGAN STATE UNIVERSITY

MAY 24-25, 2024

Science Olympiad is so important because it makes STEM fun. Students get out of the classroom and really put what they are learning and their knowledge into practice. CSU Pueblo makes Science Olympiad happen - we ARE Science Olympiad! We have faculty and more than 100 students volunteering on Science Olympiad tournament day; it's the biggest volunteer opportunity on campus! Students (on Science Olympiad teams) fall in love with the campus and they'll be able to continue here as STEM majors.

"

### **ABBY DAVIDSON**

Regional Tournament Director COLORADO STATE UNIVERSITY PUEBLO, COLORADO

Science Olympiad Headquarters Two Trans Am Plaza Dr., Suite 310 Oakbrook Terrace, IL 60181

# BE: A MENTOR

**INVOLVED** 

Science Olympiad depends on an army of dedicated educators, parents, alumni, administrators and corporate mentors who

write content, run tournaments, offer professional development and generally make Science Olympiad work. With your help, Science Olympiad is building the next generation of science students and professionals. Here's how to get involved:

# Mentoring

While each team has a faculty head coach, many teams rely on local high school students, alumni, parents or community members to assist with preparing for events. Volunteers may help with team practice sessions, build or lab event preparation, or simply provide snacks and encouragement. Many corporations have dedicated Employee Mentoring programs which allow workers time off to participate in programs like Science Olympiad.

# **WANT TO BE PART OF IT?**

Want to see more representation in STEM? Roll up your sleeves and get involved, and you could make a difference in a kids' life. Watch how these young girls in North Dakota get into Science Olympiad!

# **Tournament Volunteers**

Science Olympiad tournaments are labor-intensive affairs full of fun and excitement - they are usually held on a Saturday and require between 100-300 volunteers to run the

46 events, register and check in teams, run the scoring room, hand out medals, arrange lunch and oversee all the little details. Contact your Science Olympiad State Director if you want to assist.

# **Event Supervisors**

Event Supervisors are STEM professionals and subject matter experts who make tournaments fun and competitive for students. Using the Rules Manuals as guidelines, Event Supervisors create tests or hands-on challenges and are in charge of scoring. If you're a faculty member of the host site, this is a great way for students to get to know college professors and start to see themselves as future STEM

majors. If you're an industry partner, this is valuable exposure for kids into the STEM workforce (and maybe your company someday!).

Science Olympiad gives me a chance to get the next generation excited about career options in STEM. These kids want to be there and want to learn. When I get to teach them how to design and build things and then how to troubleshoot them, they drink it up like sponges. I've been fortunate to learn from a lot of people in my career. And this gives me a chance to pass it along to younger people who may choose to go into engineering or another science field.
